

I am sending this comment in order to identify that K-LOVE, operating in Dayton, OH on 96.9, 104.3, and 102.3 (in part or whole on FM translators) is an essential part of my every day life. My family and I listen to K-Love at a minimum of 2 hours per day, while driving, working, schooling, and having meals. K-Love provides the only source of Positive and Encouraging music, news, and information on the FM radio bandwidths, and the effect of allowing a Low Power FM (LPFM) broadcaster to displace K-Love would have a significant effect on my family. This effect would be negative, greatly, if K-Love is lost. There are not enough stations like K-Love out there, and to allow LPFM broadcasters to replace K-Love's programming with some other secular programming would be disasterous. There is no, I repeat NO equivalent to the programming provided by K-Love in the secular radio community. The service provided by K-Love is in the best interests of the public because of the Positive and Encouraging messages that the station plays/says, the community events they mention, and the announcements they provide to the public, all free of charge. Replacing the K-Love FM Translator with LPFM priority will prevent this programming, and is not in line with the 'family values' that our currnet Presidential Administration espouses, and expects from the public. Please take this comment seriously. I am a US Army officer, Military Intelligence, and Father of 5 children, all of whom bennifit daily from K-Love's programming. Please do not allow this programming to be hindered or removed to the bennifit of LPFM. Thank you.
